Atlee Burpee Co. be liable for more than the amount actually paid for the bulbs and seeds. This is the guarantee that protects all who purchase from Burpee of Philadelphia.

All our Seeds, Bulbs, Plants, Nursery Stock, Books, and Garden Supplies are sent postpaid or express prepaid excepting larger quantities of a few items as specially noted.

We hope we may supply the Seeds, Bulbs, or Roots that will bring beauty to your spring garden. Your order, whether large or small, will receive the careful attention of experts. If you need special information, suggestions, or advice, please write us.

Giant Breeder Tulips—Famous for their Art Shades

Of all Tulips, the Breeders are, without question, the most striking. With their tall majestic growth and truly enormous blooms they rival the finest of the Darwins, but it is their rich coloring which places them in a class by themselves. Hues and tones not found in any other flower are present in the Breeders. They lean toward the unusual and artistic shades, and, therefore, enjoy great popularity with those who appreciate flowers that lend themselves to graceful and quaint displays. They are attractive if planted in beds, but make their finest appeal when grown amid perennials or in the foreground of shrubbery. They are also unexcelled for cutting.

May-flowering or Cottage Tulips

The May-flowering or Cottage Tulips are similar in general habit and growth to the Darwin Tulips. They bloom also at the same time. This is a great advantage, as it permits the planting together of both types in one bed and having the varieties in bloom all about the same time. For bedding, to be planted either alone or in clumps, placed in the foreground of shrubbery or in the perennial bed, they are unsurpassed. The May-flowering Tulips are essentially a garden type, and we do not recommend them for growing indoors.

9202 Ambrosia A beautiful lilac-rose with a broad edge of bright tan. The inside of the petals is vivid orange, changing to a light tan as the flowers age. Fine large flowers. Height, 24 inches. 3 for 45¢; 6 for 80¢; 12 for \$1.50; 25 for \$2.90; 50 for \$5.60; 100 for \$11.00.

9201 Argo A fine variety particularly suited for forcing. The elegant large flowers are a delicate bronzy salmon shade. Grown in the open, the blooms are yellow, marked with red, and shaded brown. 3 for 30¢; 6 for 50¢; 12 for 90¢; 25 for \$1.70; 50 for \$3.30; 100 for \$6.50.

9203 Avis Kennicott A beautiful bright chrome yellow Cottage Tulip with a black base and black anthers. Gives a wonderful display and is highly valued for cutting. Height, 25 inches. 3 for 35¢; 6 for 60¢; 12 for \$1.15; 25 for \$2.20; 50 for \$4.10; 100 for \$8.00.

9204 Buff Beauty Bright salmon-orange with a shading of buff. The center is orange, toned with yellow; 20 inches. 3 for 30¢; 6 for 50¢; 12 for 90¢; 25 for \$1.70; 50 for \$3.30; 100 for \$6.50.

9398 Dido Lovely rich coral-pink flowers edged with vivid orange. The inside of the blooms is a bright flame color with a broad edge of salmon-orange. The yellow base and bright green halo add to the attractiveness of the blooms. Height, 28 inches. 3 for 40¢; 6 for 75¢; 12 for \$1.40; 25 for \$2.65; 50 for \$5.10; 100 for \$10.00.

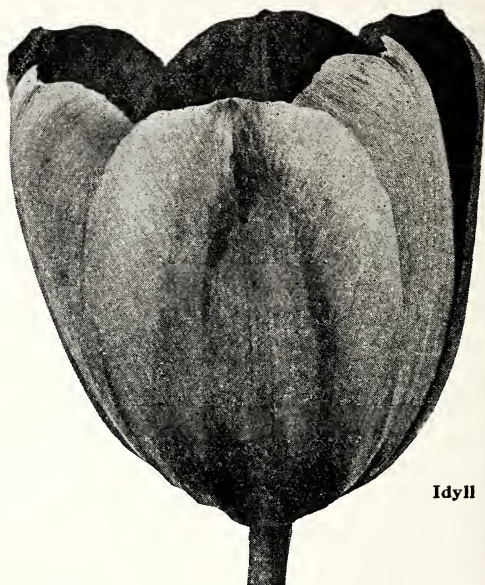

9392 Dulcinea A robust round flower of a glowing orange-red with a still brighter color on the inside of the petals. The large yellow and green base in the center of the flower gives it added distinction. 3 for 25¢; 6 for 45¢; 12 for 85¢; 25 for \$1.60; 50 for \$3.10; 100 for \$6.00.

9206 Fairy Queen A lovely soft rosy lilac with a broad margin of bright amber-yellow. The flowers are large, well formed, and of stately habit. The blooms are carried on stiff stems 20 inches tall. 3 for 20¢; 6 for 35¢; 12 for 60¢; 25 for \$1.15; 50 for \$2.20; 100 for \$4.25.

9209 Gesneriana Lutea A brilliant yellow Cottage Tulip with large blooms of artistic formation, carried on fine strong stems. It is particularly suited for growing among perennials and in the foreground of shrubbery. Height, 24 inches. 3 for 20¢; 6 for 35¢; 12 for 65¢; 25 for \$1.20; 50 for \$2.35; 100 for \$4.50.

9210 Gesneriana Major Magnificent rich crimson-scarlet blooms with a bright blue base. The flowers are large, made up of comparatively long petals, which open up widely in the full sun; 23 inches tall. 3 for 25¢; 6 for 40¢; 12 for 75¢; 25 for \$1.40; 50 for \$2.70; 100 for \$5.25.

9208 Grenadier Huge orange-scarlet flowers of fine form and heavy substance. This is a particularly showy variety which dazzles the eye when seen in bright sunlight. The inside of the petals is shaded with salmon-pink. Height, 22 inches. 3 for 25¢; 6 for 40¢; 12 for 70¢; 25 for \$1.35; 50 for \$2.60; 100 for \$5.00.

9214 Inglescombe Pink Graceful, large, globular flowers of distinct form. Excellent for planting in the border or for late forcing. The color of the elegant blooms is a lovely soft rose-pink with a faint suffusion of salmon. As the flowers age they assume more of a rose tone. Height, 25 inches. 3 for 20¢; 6 for 35¢; 12 for 65¢; 25 for \$1.20; 50 for \$2.35; 100 for \$4.50.

9217 Inglescombe Scarlet A fine companion to the other two Inglescombe varieties listed. The flowers are an intense vermillion-red with a contrasting black base. The blooms are large, well shaped, and carried on fine strong stems. Height, 20 inches. 3 for 25¢; 6 for 40¢; 12 for 75¢; 25 for \$1.40; 50 for \$2.70; 100 for \$5.25.

9215 Inglescombe Yellow A popular variety much in demand for planting together with colors of the Darwin type, because the latter does not contain any moderately priced yellow shades. The large blooms are golden yellow. Height, 19 inches. 3 for 20¢; 6 for 35¢; 12 for 60¢; 25 for \$1.10; 50 for \$2.10; 100 for \$4.00.

Cottage Tulips are attractive alike in large plantings as in smaller ones

Tulip Bulbs must be planted in the Fall

9216 John Ruskin John Ruskin has made a reputation for itself. It is indeed a most unusual variety, combining a number of rare shades into a charming color combination. The general tone is a soft salmon-rose. The edges show a seam of lemon-yellow. The inside of the flowers carries a rosy lilac cast with a broad margin and base of soft yellow. Large blooms. Height, 16 inches. 3 for 25¢; 6 for 40¢; 12 for 70¢; 25 for \$1.30; 50 for \$2.45; 100 for \$4.75.

9213 Marvel The combination of colors represented in this sturdy May-flowering Tulip is most unusual. The tones are soft and warm. The outside of the petals is a pastel amber-yellow with a touch of rosy lilac along the center of the petals. The inside is bright yellow, shaded with a warm brown tone. Blooms of medium size, shading to yellow as they age. Exquisitely scented. Height, 25 inches. 3 for 25¢; 6 for 45¢; 12 for 85¢; 25 for \$1.60; 50 for \$3.10; 100 for \$6.00.

9221 Moonlight A lovely soft and quiet tone of clear canary-yellow. The blooms are quite oval in shape with the outer petals reflexing at the tips. Fully opened, the flowers form a beautiful star of rare beauty. Height, 25 inches. 3 for 25¢; 6 for 40¢; 12 for 75¢; 25 for \$1.40; 50 for \$2.70; 100 for \$5.25.

9220 Mrs. Moon This is an excellent variety of a deep lemon-yellow color. The shape is not unlike that of a Lily. Before the flowers open fully they are quite long but later the petals reflex at the tips and give a Lily-like appearance. Height, 25 inches. 3 for 25¢; 6 for 45¢; 12 for 85¢; 25 for \$1.60; 50 for \$3.10; 100 for \$6.00.

9223 Orange King This should be in every garden. A magnificent flower of extreme size, artistic proportions, and a marvelous color. The outside of the petals is deep orange with a cast of rose. The inside is orange-scarlet. Sweet scented. Height, 19 inches. 3 for 20¢; 6 for 35¢; 12 for 65¢; 25 for \$1.20; 50 for \$2.35; 100 for \$4.50.

9229 Picotee (Maiden's Blush) The unusual combination of colors presented by this splendid Cottage Tulip explains its world-wide popularity. The shape of the blooms is not unlike that of a Lily. The ground color is white with a broad margin of deep rose. It makes a splendid display in the garden and is highly valued for cutting. Large flowered and strong growing. Height, 22 inches. 3 for 20¢; 6 for 35¢; 12 for 60¢; 25 for \$1.10; 50 for \$2.10; 100 for \$4.00.

9224 Pride of Inglescombe The combination of colors as exhibited by this sturdy variety never fails to attract attention. The petals are white, contrastingly edged with deep carmine-rose. As the flower ages the white changes to carmine-rose. Height, 23 inches. 3 for 25¢; 6 for 45¢; 12 for 85¢; 25 for \$1.60; 50 for \$3.10; 100 for \$6.00.

9225 Scarlet Emperor For color effect no other shade will give an impression like flowers of a rich scarlet shade. Scarlet Emperor, therefore, is much in demand because the blooms are a truly brilliant and glowing scarlet with the center shading into clear yellow. Of stately growth and long stemmed. The blooms are large, well formed, and of substantial texture. Height, 22 inches. 3 for 40¢; 6 for 75¢; 12 for \$1.40; 25 for \$2.65; 50 for \$5.10; 100 for \$10.00.

9226 Sirene This is another of the so-called Lily-flowered Tulips, with fairly narrow, sharply pointed petals which curve outward when the flower begins to open and give to it its beautiful shape. The color of the blooms is a rich cerise-pink with a margin of softer pink and a white base; 16 inches tall. 3 for 25¢; 6 for 40¢; 12 for 70¢; 25 for \$1.35; 50 for \$2.60; 100 for \$5.00.

9234 The Fawn When the blooms begin to open, they exhibit a lovely cheerful shade of rosy amber. Later, the color changes to a decidedly warm cream shade, artistically splashed with rose; 18 inches tall. 6 for 40¢; 12 for 70¢; 25 for \$1.30; 50 for \$2.45; 100 for \$4.75.

9332 Vesta The flowers upon opening are creamy white, gradually changing to a pure white as they age. The base remains yellow throughout the life of the flower. Has black anthers. 29 inches tall. 3 for 30¢; 6 for 50¢; 12 for 95¢; 25 for \$1.85; 50 for \$3.60; 100 for \$7.00.

9236 Mixed Cottage Tulips

Burpee's Tulips are Guaranteed to Bloom

DARWIN TULIPS

This class of Tulips is extremely popular. The plants are of strong, tall growth and the flowers are large, well formed, and come in many bright colors. They are splendid for planting in formal beds, but their boldness, stately habit, and rich colors make them also ideal for planting in clumps of 6 to 12 bulbs amidst the perennial border or in the foreground of shrubbery. They are as well suited for small gardens as for large ones. Many gardeners combine their Darwins with varieties from the Breeder and Cottage classes, because they all bloom at approximately the same time. The Darwin Tulips are also excellent for forcing indoors. Ask for free copy of the Burpee leaflet, "Bulbs for Winter and Spring Blooming."

Early Single Tulips—First to Bloom

Keizerskroon
Crimson-scarlet,
edged gold

The Early Single Tulips, by reason of their blooming season, which comes two to four weeks ahead of other Tulips, always have been great favorites for garden display and for cutting. They may be planted in formal beds or clumped together in the perennial border. For blooming indoors during the winter they are superb. For outdoor blooming, plant as soon as the bulbs are available and cover 3 to 5 inches deep with fine soil. Where alternate freezing and thawing are usual, cover the beds with a 2 or 3 inch layer of straw or pine boughs. This is to shade the surface and not to keep the soil warm. For indoor blooming, plant in shallow pans, one variety to each pan, keep dark for six to eight weeks, and then bring into a cool room for the plants to develop into fine specimens.

NARCISSUS

for Growing in Water and Pebbles

9460 Paper White

No other flowering bulb can be relied upon to give as quick and showy a display as the Paper White Narcissus. They may be had in bloom throughout the winter and spring by making succession plantings. All that is needed is a bowl, pebbles or fibre, and water. The American-grown bulbs which we offer are sure to give satisfactory results, but we recommend planting them not before the end of November, in order to insure a display of large, showy blooms. Our experience is that the best results are obtainable by late planting. It is important to get the bulbs to develop a good root system before the top growth begins by placing them in a cool cellar or closet for several weeks before they are brought to light and flowered in a cool room. 10¢ each; 3 for 25¢; 6 for 45¢; 12 for 85¢; 25 for \$1.60; 50 for \$3.10; 100 for \$6.00.

9459 Soleil d'Or This splendid Narcissus is in many ways similar to the Paper White but the blooms are an intense yellow color. The center of the cup is shaded with orange. It may be grown in pebbles or fibre, the same as the Paper Whites offered above. 18¢ each; 3 for 50¢; 6 for 95¢; 12 for \$1.85; 25 for \$3.60; 50 for \$7.10; 100 for \$14.00.

Burpee's Hyacinths—Continued

Mammoth Size Bulbs for Forcing in the House or Planting in the Garden

Hyacinths are easy to grow outdoors in beds or borders. Depending on the texture of the soil, they may be covered 2 to 6 inches deep and protected with a 3 inch layer of straw leaves or long manure to prevent alternate freezing and thawing of the soil. This cover must be removed promptly with the first warm days of spring.

While large beds in regular outline planted with Hyacinths make a very good showing, gardeners should not overlook the possibilities that present themselves by planting 6 to 8 bulbs together in a clump in the foreground of some shrubbery or in the perennial border. The bulbs may be left in the ground and should best be planted 4 to 6 inches deep to escape any injury due to cultivating of the beds during the summer.

Hyacinths are also fine for growing indoors during the winter in pots or pans or in special Hyacinth glasses filled with water. Write for the Burpee leaflet, "Bulbs for Winter and Spring Blooming."

9004 Enchantress A lovely variety with attractive long-stemmed flower-spikes. The individual bells are closely set on a strong stem. They are a beautiful **light delft-blue** shaded with somewhat deeper blue. Valuable for garden display and for forcing.

9006 Gertrude Magnificent compact trusses closely set with rich **carmine-rose** bells. This is the favorite variety for outdoor bedding because the plants make a splendid uniform growth and bloom all at one time. Easily forced.

9007 Grand Maitre A glorious spike of large bells closely set on a long and strong stem. The color is a rich **deep porcelain-blue** of unusual appeal. Grand Maitre is equally well suited for outdoor growing and for forcing.

9009 King of the Blues Those who admire rich deep shades will be particularly pleased with King of the Blues. It is, in our opinion, one of the best belonging to the **deep blue** class, with elegant, long and graceful spikes.

9014 Lady Derby Clear **rich-rose** blooms forming a solid and strong spike of color. Grown indoors the flowers are a shade deeper in color.

9012 La Grandesse An elegant spike closely set with beautiful large bells of a clear waxy **white**. It is a splendid variety for forcing.

9019 La Victoire One of the earliest of all Hyacinths to come into bloom. The flowers are a brilliant **scarlet-red**. When grown indoors, they have a tendency to be lighter.

9023 L'Innocence Elegant large **white** bells gracefully arranged on a strong, heavy stem. It makes a beautiful display and is easily forced.

9016 Lord Balfour An early-flowering Hyacinth and one of the best in its color classes. The large, well-formed flowers form a solid truss of **lilac-rose**, shaded dark violet.

9033 Queen of the Pinks A particularly lovely **rose-pink**, forming large broad trusses closely set with good-sized bells. Strong stemmed. Fine for bedding and valuable for late forcing.

9031 Yellow Hammer This is quite a good deep shade of **creamy yellow**. Yellow Hammer is easily forced and gives elegant long showy flower-spikes. Also suited for outdoors.

The First Flowers of Spring

The early spring flowers always have had a particular appeal to gardeners. Though they are not large, they seem to mean so much to us because they are the first ones. Plant them plentifully: Snowdrops, Crocus, Scillas, and all the others listed on this and the following page. Plant some Chionodoxa this year too. They make a splendid show, are perfectly hardy, and will last almost indefinitely. Fritillaria, Grape Hyacinths, and the two varieties of Scilla we list are seen far too seldom. We know you will like them. And be sure to include some of the Dutch and Spanish Iris and also a few of the Anemone.

SNOWDROPS

9496 Giant Snowdrops

(*Galanthus nivalis* Elwesii) The earliest of all outdoor flowering bulbs, ideal for naturalizing among perennials or in the foreground of shrubs. By making plantings in different locations it is easy to have a succession of blooms for three weeks and longer. It looks its best if the bulbs are planted in masses of 50 or more. Plant 2 inches deep and 3 to 4 inches apart. 6 for 30¢; 12 for 50¢; 25 for 95¢; 50 for \$1.80; 100 for \$3.50.

CHIONODOXA

9480 Chionodoxa Luciliae

(*Glory of the Snow*) Of all the small early-flowering bulbs, *Glory of the Snow* is our first choice. Its graceful flowers are white, more or less tipped with rich blue at the end of each petal. Plant 3 inches deep and 2 inches apart. If planted in different locations throughout the garden, the plants will give a display of flowers for many weeks during the spring. Fine for rock gardens. 6 for 25¢; 12 for 45¢; 25 for 80¢; 50 for \$1.50; 100 for \$2.75.

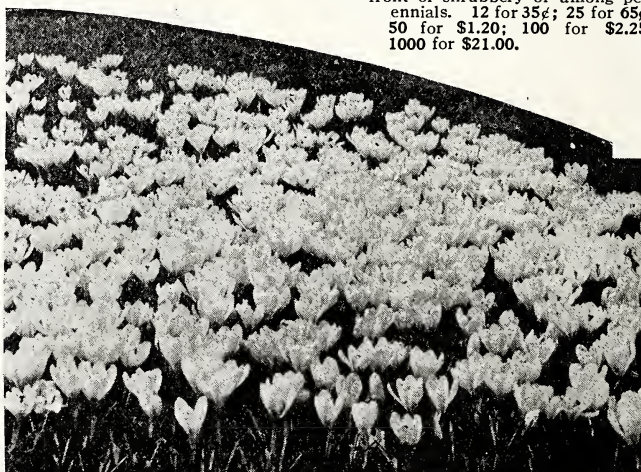

Crocus—Harbingers of Spring

Hardly any other flower is so well adapted for naturalizing as the Crocus. Many people plant it in the lawn, where indeed it will make a good display. Yet, for permanent results, we suggest that it be planted in the foreground of shrubbery where the foliage can ripen properly and insure continued existence. Plant the bulbs about 4 inches apart and cover with 2 inches of fine soil. They bloom very early and make a wonderful display with their bright colors. Easily grown in shallow pots for winter blooming in the house.

They can be grown also for winter blooming, but must not be forced by high temperature. 6 for 25¢; 12 for 45¢; 25 for 85¢; 50 for \$1.60; 100 for \$3.00.

Perennial Flower Seeds

Perennials are the chief stand-by of the old-fashioned gardeners. They require little attention and respond generously to increased care and thorough cultivation. After once being established they will not only last many years but also increase in beauty with every season. The seed of perennials may be sown outdoors almost any time of the year.

Summer and fall sowings should be made in specially prepared beds, preferably boxed in with 8- or 10-inch boards and covered with a screen of lath or wide-meshed burlap. During the winter a covering of leaves or straw manure, after the frost has touched the foliage, is all the protection needed to carry the plants safely through the winter.
